- ➔ Quick and easy to install
- ➔ Open top version also available

Features:

- ➔ Black metal design
- ➔ Neatens horizontal cable management
- ➔ Brush strip maintains airflow within the rack
- ➔ Industry standard design
- ➔ 19" rack mountable

Technical Data:

Material	Panel – SPCC metal 1.5mm thick Brush strip – nylon
Colour	Black (RAL 9005)

Product Overview:

The Maxxam brush strip panels are of a letterbox design and can be used for keeping patch cords neat and tidy in a standard 19" rack. The brush strip design enables the excess fibre or copper cables to remain out of sight whilst still maintaining the airflow within the rack.

The brush strip panels are available in 1U and 2U sizes as well as a half open top version.
