Features:

- ➔ Provides horizontal management of patch leads
- ➔ Cover hides any excess length
- ➔ Cover slides on for easy fitting and removal
- ➔ Black metal construction
- ➔ Mounts horizontally in a standard 19" rack
- ➔ Available in 1U or 2U
- ➔ Cable guide depth - 60mm

Technical Data:

Material	SPCC Steel
Colour	Black (RAL 9005)

Product Overview:

The Maxxam cable dump panel can be used for routing and managing copper and fibre patch leads in a standard 19" rack.

The detachable lid allows for easy access when dressing cables into the dump panel, and can be kept securely in place by sliding the lid back over the cable fingers.
